THIS IS UNEVALUATED INFORMATION

1. The Funkwerk Radeberg at the present time has an order for 36 sonar outfits, equipped with four submarine microphones, to be completed by the end of October 1952.
2. Ten to 15 transmitter sets of 100 watt power are delivered monthly to the Volkspolizei. Transmitter sets of one kw. power (almost 800 watts) are built exclusively for the Soviet Union or to the order of the Ministry of Communications for the shipyards. Six of these were manufactured in September 1952.
3. The production of radio sets, voice radio, carrier frequency apparatus, microwave connecting equipment and microwave sighting apparatus continues. From September to October 1952, fifty-two automobile radio sets were manufactured, the larger part of which were delivered to the Phänomen Werk in Zittau. About an equal number of portable radio and voice radio sets were produced.
4. The microwave connecting apparatus are of 8 watt power. For two weeks, throat-type microphones (laryngophones) have been manufactured, similar to those made during the war.
5. Fourteen cathode ray oscillographs and several phase meters were delivered to Leipzig in the past two weeks.
6. [REDACTED] about 22,500 men are employed at the present time in the electrical industry of the DDR. Negotiations are going on with the Soviet Union for the return of skilled workers who were drafted for work in the Soviet Union during the post war years.
